Family Safety Corner

Cold & Flu Season; Medication Safety Tips

As we embrace the Winter season and battle the illnesses it may bring, it is important to know a few helpful tips to keep your loved ones and those around them safe.

Children should stay home from school if they are experiencing symptoms of coughing, sneezing, vomit, diarrhea, or fever. These symptoms are considered contagious and can transfer from person to person by sharing toys, space, etc. Washing hands and sanitizing areas we play and eat can reduce the spread of germs.

It is MOST important to remember to keep medications "Up and Away" and out of sight of children. Follow the QR code for the helpful article and resources for storing medications properly.

Put your medicines
up AND away
and out of sight
